JOSÉ PEDRO B. RELVAS

PRODUCT DESIGNER

+48 888 323 131 | pedrobaltazar.net | pedrobaltazardesign@icloud.com

Product Designer and UI Developer with extensive experience designing user-centered digital solutions, with a primary focus on the healthcare sector, especially within SaaS environments. Skilled in collaborating with cross-functional teams to create seamless, user-focused, and visually consistent digital experiences. Industry background also includes projects in daycare, eyewear, textile manufacturing and other domains. Based in Portugal with family ties in Warsaw, Poland — offering flexibility for relocation.

WORK EXPERIENCE

PRODUCT DESIGNER AND UI DEVELOPER   09/2019 - Present
F3M Information Systems, S. A.

- Designed and developed scalable UI components for enterprise-grade web platforms across various SaaS domains;
- Designed and prototyped user flows and interfaces for 11 enterprise applications in B2B and SaaS environments, spanning multiple sectors — including healthcare (from hospital management systems to specialized wound AI treatment), textile manufacturing, daycare, fashion, eCommerce management, eyewear, and equestrian sports;
- Directed the end-to-end implementation of responsive design for both web and mobile applications;
- Collaborated with cross-functional teams and enterprise clients through design sprints, workshops, and client-facing design sessions to drive ideation, capture requirements, validate features, and gather actionable feedback
- Built and maintained a scalable component library to ensure UI consistency across projects;
- Created and maintained design systems, significantly reducing visual inconsistencies and design debt;
- Conducted visual testing across multiple browsers and devices to ensure cross-platform consistency;
- Defined product identity in collaboration with Marketing team;
- Reviewed front-end code for consistency, accessibility, and performance;
- Worked closely with developers to ensure design-to-code fidelity and cross-platform consistency, while supervising and mentoring interns to enhance team productivity.

ANDROID DEVELOPER   03/2018 - 09/2019
F3M Information Systems, S. A.

- Created end-to-end UI for an Android healthcare app, encompassing static layouts and dynamic, data-driven components;
- Delivered production-ready components aligned with Material Design principles;
- Owned full responsive design implementation, optimized for various screen sizes and Android OS versions;
- Conducted visual testing on multiple Android devices to ensure UI consistency and performance;
- Defined visual identity in collaboration with the Marketing team.

FRONT-END DEVELOPER INTERNSHIP   07/2017 - 03/2018
F3M Information Systems, S. A.
- Created several UI components for large-scale enterprise web applications, improving interface consistency and scalability;
- Co-developed design systems and component libraries, reducing development time across multiple teams;
- Led visual design efforts in collaboration with Marketing to establish branding for 3 enterprise products;
- Designed logos, iconography, and micro-interactions to enhance visual appeal and usability;
- Prototyped high-impact features for cross-functional testing and stakeholder validation;
- Participated in user testing sessions; incorporated usability insights into iterative design cycles;
- Performed cross-browser and device testing to ensure visual integrity and responsive behavior.

EDUCATION

DESIGN OF HEALTH TECHNOLOGIES | Universidade do Porto   Porto, Portugal | 2023
ARTES PLÁSTICAS E MULTIMÉDIA | Instituto Politécnico de Viseu   Viseu, Portugal | 2016

LANGUAGES

PORTUGUESE   Native
ENGLISH   Full Professional Proficiency

SKILLS

- Web Design
- App Design
- Design Systems
- Responsive Development
- A11y

- User Interface Development
- User Research
- Wireframing
- Prototyping

- Usability Tests
- Visual Identity
- Iconography
- Branding
- Illustration

DEVELOPMENT TOOLS AND TECHNOLOGIES

- HTML
- CSS and SASS
- Javascript and React.JS

- Bootstrap
- Material UI
- Storybook

- Chromatic
- GIT
- NPM

DESIGN TOOLS

- Figma
- UXPin
- Affinity Designer
- Affinity Photo
- Adobe XD
- Adobe Photoshop
- Adobe Illustrator
- Adobe After Effects
- Lottie
- Icomoon
- Figjam
- Miro
